KILLS TWO NEGRO WOMEN

Mathew Kelley, Colored, Splits Their Skulls at Louisville.

Louisville, Ky., May 20.—Splitting the skulls of two negro women while they slept early today, Mathew Kelley, a negro man, then addressed a note to the police, telling of having committed the crime. He was arrested at a restaurant, where he worked as a waiter, when the note was delivered at police headquarters to-day. Kelly said the women had been trifling with him and that he killed them for revenge.

TWO EXPOSITIONS

To Be Held at Same Time In State of California.

Washington, May 22.—A joint resolution has been presented to Congress authorizing and requesting the President to issue an invitation to the Republic of Mexico, and the Republic of Central and South America to participate in an exposition to be held in San Diego, California, throughout the entire year of 1915, and there is every reason to believe that the resolution will be passed at the extra session.

It came as a surprise to some of the senators and congressmen to learn that two expositions are to be held in California in 1915, and both for the purpose of celebrating the opening of the Panama Canal, but the representatives of the San Diego project, now in Washington, were able to show an agreement entered into between the two exposition organizations in California, whereby the San Francisco organizers agreed to assist the San Diego people to get the present exposition resolution through, after San Francisco had secured federal recognition for her exposition. This agreement was signed more than a year ago.

There is no opposition to the San Diego exposition resolution apparent. Senator John D. Works, of California, one of the Progressives, introduced it in the senate, and Congressman Raker, from one of the Northern California districts, and a Democrat, introduced it in the house.

Col. D. C. Collier, of San Diego, Director General of the San Diego exposition, who heads a delegation of San Diego citizens and exposition officials now in Washington, explains that San Diego was first in the field with a project to celebrate the canal opening by an international exposition, and that San Diego has never let up on the project since it was started. Following the signing of the agreement with San Francisco, San Diego consented to keep its project in the background until San Francisco had won its recognition from the government, but during that period San Diego proceeded to complete an organization of exposition workers, which contains John C. Olmsted, of Boston, celebrated landscape architect, who is laying out the exposition grounds in Balboa Park, in San Diego; Bertram G. Goodhue, greatest exponent of Spanish-Colonial architecture in the world, who is designing buildings to form the great "Mission City," that will house the San Diego exposition, and Frank P. Allen, Jr., who will be Director of Works and who was selected because he was the man who completed the Alaska-Yukon exposition in nineteen months and had it ready on time.

Director General Collier has assured the members of Congress that San Diego is not intending to rival San Francisco in the matter of an exposition, but will build and open an exposition that is to be entirely unique, and different from any other exposition ever held. It is not to be a "sideshow" to San Francisco's exposition, either, but a great spectacular and artistic exposition, with

the biggest Indian Congress ever held as one of its attractions.

The city of San Diego already has raised \$2,700,000, and placed it in the hands of the exposition organization for preliminary work. The State of California has pledged half a million more.

ONE MORE SUIT

Filed Here Against Construction Co. And Others.

Thos. S. Knight has instituted suit against the McDowell Construction Co. and others for \$300,000 damages. Plaintiff alleges in his petition that the defendants, while engaged in L. & N. revision work in the southern part of the city, forced his tenant and family to vacate the premises and that the house was removed from the lot, disposed of, and the proceeds appropriated. He further alleges that dirt and rock removed from the cut was thrown on the lot and in front of same to a depth of eight or ten feet, thus destroying the value of the property.

A Splendid Tonic.

Cora, Ky.—Mrs. Iva Moore, of this place, says, "I was so weak, I could hardly walk. I tried Cardui, and was greatly relieved. It is a splendid tonic. I have recommended Cardui to many friends, who have been benefited by the timely use of that successful tonic medicine, Cardui. Purely vegetable, mild, but reliable, Cardui will merit its high place in the esteem of those who have tried it. It relieves women's pains, and strengthens weak women. It is certainly worth a trial. Your druggist sells Cardui."
